

Dr Zoe Brady is the Chief Imaging Physicist and Radiation Safety Officer at the Alfred Hospital in Melbourne, Australia. She has worked as a clinical physicist for more than 15 years and has research interests in the risks from low dose ionising radiation exposure and the implications for current medical policy and practice. Zoe holds an honorary research position at the University of Melbourne where she is involved in one of the largest paediatric cohort studies worldwide to publish risks relating to exposures from CT scans in childhood and adolescence. Additionally, she holds an Adjunct Senior Lecturer position with the Department of Neuroscience, Monash University. Zoe is an Associate Editor for the British Journal of Radiology and the current chair of the ACPSEM Diagnostic Imaging Certification Panel.
