

Assoc. Prof. Dr. Noramaliza Mohd Noor embarked on her career in Medical Physics academia at the Department of Radiology, Faculty of Medicine and Health Sciences, UPM in 2012. She earned her BSc (Medical Physics) and MSc (Medical Physics) from Universiti Sains Malaysia before completing her PhD in Radiotherapy Dosimetry at the University of Surrey, United Kingdom. With a strong focus on Medical Physics research, Noramaliza has led more than 15 grants as principal investigator, supported by governmental and industrial sectors. Her contributions include over 60 publications in high-impact journals, alongside the acquisition of two patents and four copyrights. Currently, she holds the positions of Head of the Medical Physics Unit and Radiation Protection Officer at Teaching Hospital Universiti Putra Malaysia. Additionally, she serves as President of the Malaysia Association of Medical Physics (MAMP).
